

# CLAUDE DE-TCHAMBILA

## SOFTWARE DEVELOPER

### OBJECTIVE

My objective is to obtain a position as an intern software developer. I have been studying software development for a little over two years; during this time I have constantly been exposed to the process of developing quality software. With this background, I have been able to build an impressive portfolio and develop great skills. I aim to be able to grow and develop as a software developer in order to build amazing software for the world.

### CONTACT

-  29 Wallace St Goodwood  
Cape Town, South Africa
-  (+27) - 74895 - 4636

### EDUCATION

2018 - 2020

**Diploma in Application Development**

Cape Peninsula University of Technology

2015

**Metric**

Fernand Nathan, Brazzaville

### EXPERIENCE

Freshly coming out of university, I have developed a few apps during my years of training. Some of the apps are mentioned in this resume under the skills and links section. References to other apps will be provided upon request.

**2019** Department of Science & Technology National Science Week, as part of a community engagement in collaboration with CAMISSA SOLUTIONS

### SKILLS & LINKS

#### Python/Django

I have been building a few apps using Django and the rest framework. Most of my apps can be seen from my github account and others will be provided upon request. Please visit the following link: <https://github.com/ChClaude/leadmanager-react-django>

#### .NET Core

I have some experience developing software on .Net Core with C#. One of the projects that I am most proud of is a flight booking web app that I have built with ASP.net Core. On this project I have implemented a Single Page Application with **React JS**: <https://github.com/ChClaude/Flight-Booking-API-Full-Stack.git>
